### Tour Description:

Every year leaf peepers flock to New England for nature's display of brilliantly colored trees. The leaves of autumn in New England delight visitors from all around the world. The color change starts in mid-September in Maine, New Hampshire and Vermont. Come and join us on a 17 day guided fall foliage tour through these three states, while Mother Nature paints her canvas with spectacular colors. We will stay at four different campgrounds. At each campground, we will have one day that the whole group will participate in an activity together, such as visiting a local attraction which will provide a wonderful back drop to the fall foliage. The other days we will have an optional activity such as exploring the back roads of New England on scenic drives, easy to moderate hikes or you may choose to do your own exploration.

Our camping journey will begin along the seacoast region of Bar Harbor and Acadia National Park in Maine. Our next stop will be the Lake Winnepesaukee region of New Hampshire. Our third stop will be the farmlands and mountains of mid-Vermont. Our final destination will be the White Mountain National Forest area of New Hampshire.
